

CANDY COOKIES

- 2¼ cups all-purpose flour
- 1 teaspoon baking soda
- 1 teaspoon salt
- 1 cup butter or margarine, softened
- ¾ cup granulated sugar
- ¾ cup packed brown sugar
- 1 teaspoon vanilla extract
- 2 large eggs
- 12 ounces of your favorite candy bar, broken into small pieces. Reese's cups and Whoppers may be chopped into small chunks. M&Ms and similar candies can be used whole.

Preheat oven to 375 degrees. Combine flour, baking soda and salt in small bowl. Beat butter, granulated sugar, brown sugar and vanilla extract in large mixer bowl until creamy. Add eggs one at a time, beating well after each addition. Gradually beat in flour mixture. Once mixed, add candy pieces. Place teaspoon-sized drops of dough spaced about 2 inches apart on a cookie sheet. Bake for 9 to 11 minutes until the cookies are golden brown. Cool on baking sheets for 2 minutes; remove to wire racks to cool completely.

Driving in a Winter's Wonderland

Winter is here once more and here are a few tips to make driving in winter a more pleasant and safe experience!

- Winterize your vehicle because being prepared is essential to safe winter driving. Your heater, defroster, windshield wipers and fluid, tires, battery and brakes must be in good working order.

- Slow down for curves when they are snow covered.

- Don't feel over confident in a four-wheel drive vehicle. They do help you move more easily in snow but they do not help you stop!

- Do not let your car run while it is in the garage because carbon monoxide can build up.

- Remove snow that may have accumulated around your vehicle's tail pipe.

- Do not drive until all your windows are cleared.

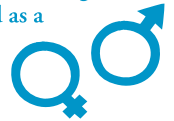

- Bridges freeze before roads.

- When snow or rain is falling, remember to turn on your headlights.

- Keep your cell phone charged in case you need to call for help.

Who Are Safer Drivers?

The ladies win this one! According to Quality Planning men are four times more likely than women to get ticketed for reckless driving and 3 times more likely to be cited for drunk driving. The reason is that women (on average) are less aggressive than men and more law abiding drivers. More men than women are killed as a result of a traffic accident. Because of this, men's insurance rates are higher than women's.
